SLUDGE DEWATERING PLANT

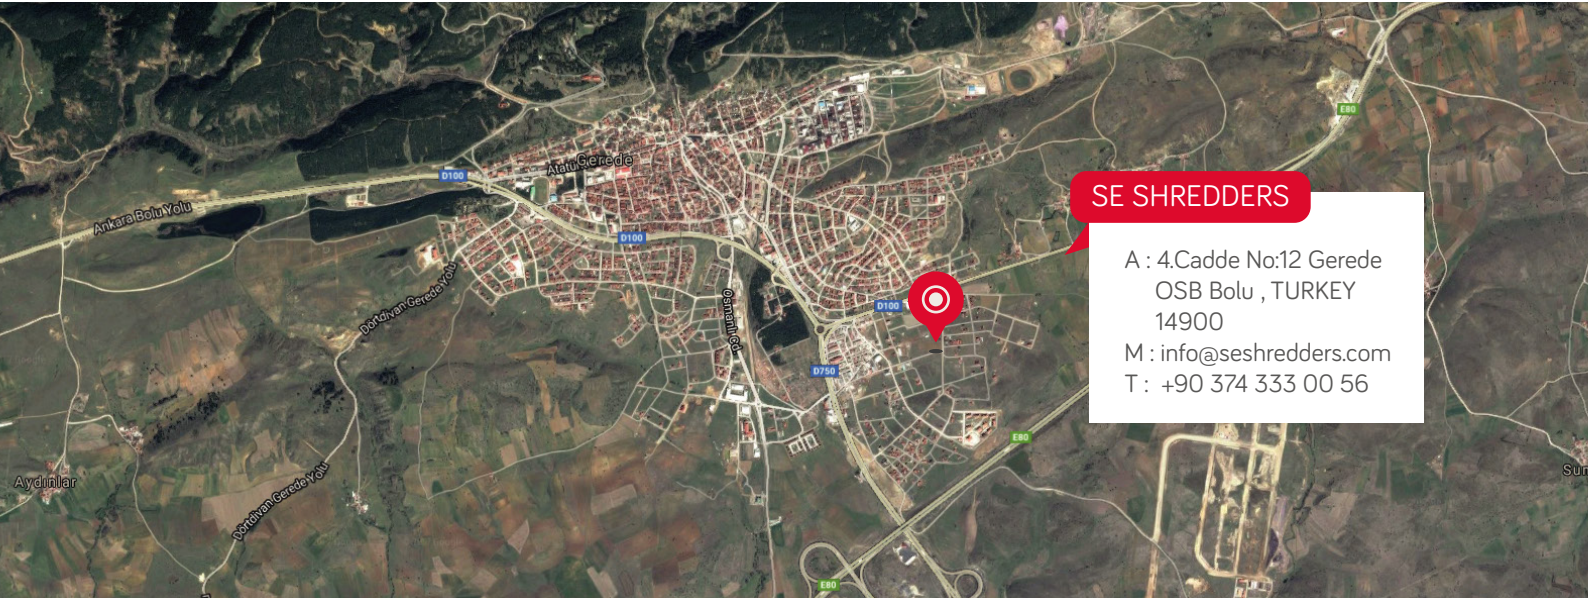

SLUDGE DEWATERING PLANT

Dewatering plant enables the use of high moisture content sewage sludge to convert alternative fuel and it offers the opportunity to reuse the process water. Dewatering plant to process 40 tones/hour of sludges which have %10 dry substance rate. 32 tones water per hour can be recycled and reused in the process again.

Advantages:

- Continuous feed
- 40 tones/hour capacity
- Opportunity to reuse process water
- Alternative fuel
- Low cost with single machine
